POSITIVE DEVELOPMENTS IN ENGLEWOOD

FOOD FOR THOUGHT BREAKFAST SUNDAY, OCTOBER 22 AFTER MORNING MINYAN IN THE SPAK AUDITORIUM

Join us as BHBE Congregant Larry Gerber and Englewood resident Tamara Manasseh describe great work they are doing in Chicago Englewood community.

Larry Gerber discusses SHIFT: ENGLEWOOD which was started by his foundation. Shift: Englewood provides free intensive music training to young children in the Chicago Englewood community to promote their social and personal growth.

That growth is reflected in improved academics, increased self-confidence, and self-respect, an improved ability to cooperate with others and a better understanding of what they are capable of achieving.

Tamara Manasseh discusses Mothers Against Senseless Killings (M.A.S.K.) MASK was established in 2015 as a way to put eyes on the streets, interrupt violence and crime, and teach children to grow up as friends rather than enemies.

A group of caring individuals in the community began to simply hang out on the block, cook food, and emanate love.
